

## INOIS® FLEX

**Noble wood:** glued formaldehyde-free, refined in over 140 types of noble wood as required

**Carrier:** MDF FF (formaldehyde-free) or MDF FF (formaldehyde-free) thoroughly black

**Thickness:** approx. 08 mm

**Formats:** 2400 x 1200 mm = standard format

**Variants:** Perforation 16/16/8 mm - slots 14/2 mm (radius up to minimum 150 mm possible)  
Perforation 32/32/8 mm - slots 30/2 mm (radius on request)

**Processing:** Cuts to fixed dimension, INDEWO® digital printing, oiled or UV-varnished surfaces

**Advantages:**

- **Minimum radii – up to only 150 mm possible!**
- Formaldehyde-free carrier for the highest demands on room health
- Due to the extreme flexibility of the individual elements, the INOIS® FLEX opens up fully new freedoms in the design of surfaces and rooms.

**Use:** INOIS® FLEX can be used as wall or ceiling paneling as well as decorative furniture front, making it particularly suitable for use in concert halls, conference and meeting rooms, offices, schools, hotels and airports.
